

Church Educational System (CES) Soundtracks

Okay, I don't think any of these will ever make a hymnal, but I list these because of the profound influence these songs have had in our lives. President Spencer W. Kimball was looking for a way to better teach the Gospel to the youth through the Seminary program (teenage years); he turned to music and commissioned songs of a contemporary style that had never been used by the Church before. Parents weren't all that thrilled to have "modern" music teaching the Gospel, but the songs reached out and touched hearts and planted testimonies. Parents were satisfied with the results. Two generations know many of these songs and can trace the beginnings of their testimonies to these albums.
